The Forest Service is interested in finding ways to make our internal process for managing oil and gas leasing and permitting more efficient and to improve customer service. The Forest Service is committed to carrying out its responsibility to contribute to the nation’s supply of energy resources while continuing to sustain the land’s productivity by managing oil and gas activity in an environmentally sensitive manner.

We appreciate any time you commit to learning about our regulations and giving us comments and thoughts that may help guide the revision of the Oil and Gas Resources Regulations.

Thank you
Nicholas E. Douglas
